Fischer stays away SECOND GAME TO SPASSKY

REYKJAVIK (Reuter). — Mercurial Bobby Fischer last night for-feited the second game of his world chess title match to Russian champion Boris Spassky when he failed to turn up to resume the series. This left Spassky leading 2-0 in the 24-game series which began on Tuesday.

The 29-year-old U.S. champion refused to go to the playing hall because he objected to the positioning of television cameras covering the event. The audience - and Spassky - waited the full hour after the scheduled start of the game called for under the tournament rules before officials awarded the match to.

U.S. and Icelandic officials made desperate efforts to persuade the American to leave the royal suite of the Loftleidir Hotel where he is staying and come to the hall. A police car and motorcycle escort waited outside the hotel, but Fischer failed to emerge.

When the hour had elapsed, the rose from his table on stage and announced to the bewildered audience: "Mr. Fischer has not arrived. Under due to start on Sunday. the international chess rules, if a

player has not appeared when one hour of a game has passed, he loses the game by forfeit."

Fifteen minutes after the game was due to start, Icelandic Grand Master Fridrik Olafsson was sent to Fischer's hotel to try to talk him into playing. Meanwhile, police manned street intersections on the route between the hotel and the playing hall and scores of people lined the approach road to the hall.

As the time for the game approached, chess experts here speculated that if Fischer decided not to turn up because of the dispute over the cameras, he might well consider the championship a lost cause and

McGovern's 4-year trek to the nomination

By JOHN HEFFERNAN MIAMI BEACH (Reuter). — THE road for Senator George McGovern to the Democratic Presidential Nomination, which ended successfully yesterday morning, began four years ago when Senator Robert Kennedy was killed by an assassin's bullets. A few weeks after Sen. Ken-

nedy's murder, Sen McGovern step-ped into the 1968 presidential race. He made himself the rallying point for those Democrats who had backed Kennedy for the presidency.

He made only a minor impression in the 1968 campaign, but he learn-ed a lot from the tactics used then by Sen. Eugene McCarthy, the lieral and anti-Vietnam War candi-

Sen. McCarthy gathered round him an army of young people who helped him shake the party establishment and contribute to the decision of President Lyndon Johnson not to accept renomination.

However, sports medicine already shows promise of being able to help in the measurement of training progress. The strength of muscles can be observed with the aid of dynamometers. In sports like running, which require a sustained effort from the large muscles, the ability to take oxygen from air and to pump it to the muscles becomes a decisive factor. Neo-Fascist bloc

The increase in the neo-Fascist vote in the May general election means that there is now a solid block of 56 neo-Fascist Deputies in the Chamber. No prosecution has ever been brought under the anti-Fascist laws and Mr. Almirante was careful in his election propaganda to disassociate his party from all that was evil during the Mussolini era. If Parliament does decide to lift his immunity to enable him to stand trial it would be the signal for a general hardening of attitudes on the extreme Left and Right — and per-

haps more violence.

The other main points in Mr. Andreotti's programme—bolstering a sagging economy, carrying out re-forms in the schools and universities, the civil service and housing — were all predictable. His main task during the long Italian summer holidays will be to prepare for the labour crisis that is to burst in the autumn when collective labour contracts for over four million workers come up

FOSTER FAMILY NEEDED

To the Editor of The Jerusalem Post Sir, — S.H. is a problem girl who has been in Israel for the past year. As an infant, she was adopted by a family in Beverly Hills, who have now made her a ward of the court, as they are unable to handle her.

S.H. is 16 years old. In September, 1971, she was enrolled in an agricultural high school here in Israel, which she ran away from on the first day. She spent eight months wandering around and living with hippies, after which time she was found; since then, for the past two months, she has been under the care of the Jerusalem Municipality's Department for Problem Girls. At this point we are in dire need of a family who is willing to take her into their home, preferably in the Jerusalem vicinity. We are hoping to find a family who is interested in caring for her for the nominal fee of IL300 per month. If no home is found for S.H., she will be sent back to the U.S. where reform school awalts her.

If you care and are able to help, even for a trial period, please call 224361, extension 73, during working hours or write to the Department for Problem Girls, Jerusalem Municipality, Family Services, Rehov

New Approach Needed to Realize U.S. Aliya

(Excerpts from the address delivered by Herman L. Weisman, President of the ZOA, at the opening session of the 75th Jubilee Convention.)

This is the day to recall that in the summer of 1897-75 years years ago—Jewish history knew of only two eras. The first: when Jews had their own country - a State and no Diaspora. The second: When century after century there was no Jewish State, and the scattered disoriented and disorganized Jewries of the world were caught between the twin scourges of annihilation by brutal anti-Semitism or by decimation through an insidious assimilation. Meanwhile, they clung desperately to their only immunity: fidelity to Torah and Jewish tradition,

Then it was that Theodor Herzl burst on the scene like a meteor from the sky with his Judenstaat, proclaiming to a startled world: "Other nations have ruled long enough over They have a just claim to rule themselves in a Jewish State!"

Thus Herzl started the third epoch in Jewish history, domi-nated by the central Zionist idea — consciousness of Jewish peoplehood.

A few months earlier in 1897, the first District of the Zionist Organization of America was

Accordingly, there's no place on earth more appropriate for celebrating the 75th Jubilee Convention of the ZOA than here in Israel. And in Yerushalayim, the eternal capital of our eternal

Let me start with a short and direct question: What is the ZOA doing, and going to do, about aliva?

The ZOA has had an aliya department for 20 years. Notwithstanding the praise it has received for the results of its aliya efforts in large centers from coast to coast, I tell you frankly that the results - and this also applies to the total aliya from the United States barely scratch the surface of the potential which is there.

BENEFITS TO YOUTH

Our work among youth shows practical benefits to aliya. Many from the ranks of Massda, the ZOA's national youth movement, have settled here, and their numbers will increase. Bringing American teenage students, In increasing numbers year by year, to study, to play, to learn and to travel in Israel, encourages aliya. A temporary visit to Israel - the longer the better frequently paves the way to remain, or to come back as an oleh. We find that a final decision by a youth is a powerful persuader for parents to follow.

We strive to make aliya fashionable as the most direct, fulfilling and permanent answer to the restless quest by Jewish youth for identity as individuals and for identification with their people.

pand and intensify the ZOA's aliya activities. This must be done pursuant to a definite plan. The plan must offer a realistic chance for attracting American Jews, young and otherwise, to settle in Israel. It must allow them to pursue their calling, and to follow any other line of work.

Only in Israel can a Jew live a Jewish life in fellowship with other Jews, while sharing the challenge of building, developing and protecting a brave and progressive Jewish society. Thus the plan must stress the long-term moral and pragmatic advantages of life in Israel, rather than play upon the tensions and frustrations of their present condition.

The plan, in its flexibilities, must also reflect the pluralism characteristic of American society, the fellowship among those of similar economic status and outlook, the common interests among those of similar professions or callings and among the

youth and students. ZOA BEST FOR ALIYA

Let me illustrate: Labor Zionists are apt to get the best response in a program aimed at increasing American aliya from among workers, trade unionists and socialists.

For those who give priority to religious observance, the Religious Zionists would be the best agency to foster their allya. However, aliya in meaningful

numbers from America cannot succeed without securing interest and response from the broad middle section of American Jewry.

I submit that the best agency for presenting aliya to the middle class of American Jews is the ZOA.

The ZOA is part and parcel of the middle class of American Jewry, sharing a common cuitural and economic outlook. This has been and is the source of our membership and following: the average businessman, the merchants and storekeepers, the entrepreneurs and industrialists and manufacturers, the accountants, doctors, lawyers, publishers and journalists. The middleclass Jews in America have been, and remain, the bulwark of the ZOA's ability, in connection with public affairs affecting Israel and Zionism, to reach opinion-makers throughout the United States in the big cities, state capitals and Washington. This network of ZOA leadership in many places

Herman L. Weisman

has played, and continues to play, a major role in molding public opinion in favour of Israel and the Zionist idea.

Aliya is a different type of program, but the technique of using our widely scattered contacts and friendship to create a favorable climate of public opinion towards it is essentially the same: the day-in and dayout functioning of numerous small groups for aliya at the grass roots, pursuant to a definite plan, can and will make a big difference by face-to-face encouragement and preparation. In this manner, there's a better chance to develop a committed aliya which, once here, will stay and encourage others to remain.

At the proper time, the prospects will be referred for further or final processing to the Aliya Department of the WZO, with which we want to work hand-in-hand.

NEVER TRIED

This comprehensive yet decentralized and personalized involve-ment with fostering aliya has never been tried.

We say to our World Zionist Organization: Be ready to change existing methods. If the present system isn't bringing good results — and it isn't change it. Work with us. Let us work with you.

Something more fundamental than technique and systematized procedures are involved.

What is called for is a changed pattern of attitude and conduct by Zionist leadership in Israel towards American Zionism which would reflect the pluralistic character of Zionist organizational activities in the United States.

The approval of Zionist leadership in Israel, and visible evidence of their support of a particular aliya program, would carry enormous weight in the numerous American communities where the ZOA can do effective

work. Perhaps it is not inappropriate for the Israeli branch of the Zionist partners in the enlarged Jewish Agency to consider giving "equal time" to a vigorous American campaign for allya. Such attention, geared to the individual efforts of the ZOA and other organizations, will add the impetus of aliya to the noble purposes of the great American fundraising campaigns The uniqueness that is Israel, that which lists the State above the common variety of "a na-

The policy of an open door to Jewish immigration justifies the creation of the State as the means for achieving the ultimate goals: the ingathering and survival of the Jewish people.

VINDICATION

The English wanted to stop Jewish immigration to please the Arabs. They failed. They, too, raised the spectre of the absorptive capacity of the country. The tiny but valiant Yishuv told the world, in the words of Chaim Weizmann: "The Jewish immigrant carries his absorptive capa-city in his suitcase." With sacrifice and blood, the Yishuy won its battle for unrestricted immigration. The phenominal growth and development in the last 25 years vindicated unrestricted immigration, with the prodigious support of a loyal Dias-

That any part of Israel's young generation should advocate renunciation of this basic Zionist principle - and the extent of this opposition may be greater than its public expression — demonstrates the need in Israel for an education which focuses on the meaning of Zionism, the logic of Jewish history and the ties of Hebrew tradition and culture with the continued existence of the Jewish people and the State itself.

Immigration and absorption transcend convenience and economics, for they are the blood and muscle of Jewish survival.

Jewish survival is not derived from logic. Common sense and philosophy agree that it is an existential fact rooted in the collective will of our people. The will to survive as a people is a fact, non-debatable and non-negotiable. The Jewish State was born, as Herzl correctly predicted, out of the energized will of the people. It will live and grow strong and secure only if the people of Israel shall faithfully exercise their will-to govern and develop Israel not only for them-selves, but for the whole Jewish people.

Nixon Message to ZOA

Mr. Herman L. Weisman, President Zionist Organization of America

Jerusalem Dear Mr. Weisman:

It is my great pleasure to extend warmest greetings to you, delegates and officers of the Zionist Organization of America, on the occasion of your Diamond Jubilee Convention in Jerusalem. I salute you today as people who truly share the heritage of two great nations, israel and the United States. Both countries are strengthened by your leadership and both share a common goal, the preservation of freedom and peace in the world.

As we approach the second anniversary of the Middle

East cease-fire, we can find satisfaction in those first difficult steps toward the genuine and lasting peace envisioned by the United Nations Security Council. Yet the goal of peace is still ahead, and we must reaffirm our dedication to achieve it. In my recent discussions with Soviet leaders on the

Middle East, I made clear the commitment of the American people to the survival of the State of Israel and to a peaceful settlement that would be just for all countries in the area. Be assured that our dedication to these goals is abiding and that our efforts to achieve them will

Greetings from U.S. Leaders

Senator GEORGE McGOVERN of South Dakota: "I am delighted to extend my warmest regards to the Zionist Organization of America on the occasion of its 75th Jubilee Convention in Israel. In all of human history, it is difficult to find a single case comparable to the Zionist movement that was able to transform a dream into a reality. But we must match pride in the past with vigilance for the future. We must match joy in the creation of Israel with a determination not to let Israel slip to the razor's edge of survival."

Senator HUBERT H. HUMPHREY of Minnesota:

"Please convey my greetings and best wishes to your membership on the occasion of your 75th Jubilee Convention. This is an especially significant event in that you are privileged this year to meet in Israel. I wish you a successful convention."

Senator EDMUND S. MUSKIE of Maine:

"You can be proud of your organization and the great work you have accomplished. Zionism, as a movement and an enduring ideal to restore Jewish nationhood to the ancient homeland of the Jewish people, has captured the imagination of people all over the world."

Senate Minority Leader HUGH SCOTT:

"My heartiest and warmest congratulations to you on the observance of the Zionist movement's 75th Jubilee Year. The legacy of Theodor Herzl is one which will live forever. You have my prayers and best wishes for a memorable observance of the beginning of his work to establish a Jewish State."

House Minority Leader GERALD R. FORD:

"Please accept my sincere congratulations on your 75th Jubilee Year and my best wishes for the success of your meeting in strengthening the bonds of friendship between the United States

House Majority Leader HALE BOGGS:

"Your organization and its members are contributing not only. to the security and well-being of the State of Israel, but to friendly and cooperative relations between our two nations as well. A strong and self-reliant Israel is the best hope for a lasting peace in the Middle East, and your organization is helping to speed the arrival of that day."

Senator EDWARD E. BROOKE of Massachusetts:

"Throughout the years of struggle, the Zionist Organization of America has been a bulwark and support for the State of Israel. I know that this Convention will honour the sacrifices of the past; I pray that it may also be distinguished by justifiable pride in the accomplishments of the present, and by the joy of confidence in the years to come."

Outlook Good on U.S. - Israel Ties

Jacques Torczyner, chairman of the ZOA National Convention Committee, delivered at the opening session of the 75th Jubilee Convention.)

A lot has happened during the 75 years of the ZOA's existence. We have surmounted many obstacles, and very few would have believed 75 years ago that we would celebrate this historic convention in the capital of the Jewish State and the Jewish peo-ple — the city of Jerusalem.

Many among you well remember the atmosphere in which we met immediately after the Shx Day War. We thought that Israel's decisive victory would bring about permanent peace. Unfortunately, there is still no peace. The Archs continue to adhere to the Khartoum Declaration of "no negotiations, no peace, no recognition of Israel." As long as the Arabs remain adament and infransigent, Israel should stay at its present borders and its Army should not budge an inch.

The thousand delegates who came to participate in our convention from all over the United States want to show and to express their solidarity with the people of Israel. We realize fully that, notwithstanding the tremendous burdens imposed by the military situation, Israel has made great progress in every field of

ASSUBANCE OF FRIENDSHIP

The relations between the Government of the United States and the Government of Israel have reached a level of real understanding and close cooperation. We can assure the people of Israel of the friendship and support of American Jewry and of the American people as a whole. The State of Israel has had the support of the Nixon Administration. But the strength of Is-reel's position in the United States is based on its support by both political parties. It is very important that Israel have friends in both parties. It is not good if one political party believes that it has the Jewish vote in its vest pocket and that the other thinks that it cannot get the Jewish vote.

We are now in the midst of an electoral campaign in the United States which shows clearly a growing tendency among young Americans to accept a new isolationism and to demand a retreat of the United States, position as a leading world power. In our judgment, the only hope for the survival of the free world, and the only bulwark against the danger of a Communist victory in the world, is a strong and powerful United States.

It is true that the majority of American Jews have supported the so-called liberal positions in the United States, but many Jews have become disenchanted with the way in which the left has adopted an anti-Israel and, sometimes, even an anti-Semitic position. The Jewish community in the United States is not what it was 25 years ago. Today it is not only a religious community sharing religious affinity with Catholics and Protestants. We live in a world where the ethnic factor has grown and has very often determined the position of a group. More and more the Jews are considered an ethnic factor and, therefore, the Zionist conception of the Jewish problem is today as true as it was 75

Divine Providence placed six million Jews in the most powerful democracy in the world.

It is true that the relationship between the United States and Israel is based on a community of interests and on an understanding between countries that believe in the same ideals, but we should never forget that the presence of six million Jews in the United States is a great factor in the support of Israel by the Government of the United

ISOLATIONISM PREVAILS

Today, on the eve of the 25th anniversary of the State of Israel, we find that the same isolationism that prevails among Americans in general has pervaded the American Jewish community. More and more voices are heard criticizing the domi-nation of the Diaspora by the State of Israel. While it is impossible or difficult for them to attack the beleaguered and embattled State of Israel directly, they use the Zionist movement as their whipping boy. There is a difference between Zionists and friends of Israel. We believe in the centrality of the State of Israel. We believe in the unity of the Jewish people. We believe that whatever happens to a Jew anywhere in the world affects Jews all over the world.

movement of Jewish renaissance of the World Zionist movement. We were part and parcel of it since the beginning, since the days of Theodor Herzl, and no one will change this relationship. We believe in a strong united Zionist movement, but we also believe as firmly in the need to maintain in the United States the integrity of the various organizations to permit them to implement unhindered their ideologies and programs.

In the days ahead, we hope that we shall have an opportunity to learn more about the people and the problems of Israel. We hope that the Israelis will have an opportunity to become better acquainted with our achievements, with our problems and hopes. We should solve them together so that we can continue the tradition of moving towards a better future.

A Proud Look Back . . . A Confident Look Ahead

(Excerpts from Introduction to Convention Report by Leon Ilu-tovich, National Executive Director of the ZOA.)

As we meet for this, our third national Convention Israel, we stand at the treshold of the ZOA's 75th year.

It is a meaningful and memorable event, for the record of our organization comprises in great measure the record of American Zionism. The ZOA is the pioneer and parent body of Zionism in the United States. From its ranks have come Brandeis and Wise, Magnes, Frankfurter, Silver and other great champions of Herzl's cause. Through the decades, ZOA leadership has played an eminent and often decisive role in Zionist affairs: from the winning of American support for the Balfour Declaration through the establishment of the Keren Hayesod and the issuance of the Blitmore Platform, down to the struggle in the United Nations for statehood and the drastically changing priorities in the era of the Third Commonwealth.

Our Convention marks a double celebration, for it ushers in the 25th year of the reborn Jewish state. In the light of the history that I have briefly sketched, the two anniversaries - the ZOA's 75th and Israel's 25th — bear an organic relationship of cause and effect. It makes their joint observance a natural one, and this fact has been duly taken into consideration in plans now being shaped for the ensuing anniversary year. On this occasion, it may be

appropriate to recall a statement made on the ZOA's 60th and versary by Dr. Emanuel Neu-

Loon liutovich

mann, then president of our ofganization:

"We look back fleatingly, but tomorrow and on many a morrow to come we shall be looking ahead - and pressing shead - to that time when the National Home which we have helped to erect stands firm and secure. For, while we have good reason for pride in our achievements, much yet remains to be done for the future of the Land of Israel and the House of Itrael. The Third Commonwealth was created not only for those who were there or who will be coming in the next decades, he for generations unborn the west

Israel's sovereignty was declared. It was in the besieged city of Jerusalem, during the winter months at the beginning of 1948. Africa emerged from the tennis Minnesots sion to the Davis Cup tournament and survived another attempt to oust it from the international federation.

The Cup ban on South Africa, imposed in 1970 and endorsed last year, was lifted by the seven-man special committee of the Davis Cup. South Africa will re-enter the tournament next year but will contest the South American Zone and not the European Zone as in previous years. This move was designed to prevent the disruption of the tournament by some European Zone

nations on political grounds.

The original ban was imposed because it was feared the Springboks' presence would harm the competiion, Poland and Czechoslovakia having pulled out of matches with South Africa in 1969 in protest to the South Africans' apartheid policy

TACK Nicklaus went into yesterday's second round of the British Open Golf Championship in an unusual spot. He wasn't leading. The 32-year-old American star, who needs the British title for the third leg of an unprecedented pro-fessional golf grand slam, shot a one-under-par 70 in Wednesday's first round over the 6,892-yard Murifield course.

He was two strokes behind the leader, little-known British pro Peter Tupling, and one behind Britain's Tony Jacklin. Nicklaus, overwhelming favourite to win his third British crown, shared third place with two other American players, Frank Beard and Dave Marr, and two Britons, Peter Townsend and

Craig Defoy. In all major tournaments over recent months Nicklaus either has led or shared first place from the start. These included the Masters and U.S. Open, the first two titles he already has won on the road to the grand slam. The British Open and the American PGA next month would complete his greatest ambitton.

TONNY Bench, baseball's homerun leader, smashed two home runs Wednesday night as the Cincinnati Reds made it two straight victories over the Pittsburgh Pirates

Bench's home runs were numbers 23 and 24 of the season for the Cincinnati catcher and raised his RBI total to 69 also tops in the major leagues.

The result kept the Reds' lead at 1½ games in the National League West and cut the Pirates lead over the New York Mets to 3 games in the NL East. Veteran right-hander Bob Gibson won his ninth in a row with a six-

hit 7-0 triumph over the Atlanta Braves, and the Kansas City Royals ripped the Baltimore Orioles 11-4 with a seven-run uprising in the 10th linning, highlighted by Cookle Rojas' grand slam home run. The defeat dropped the Orioles two games back of the first-place

The American Ulpan, Israel's largest language school teaching Eng-lish to over 2,000 adult Israelis in Jerusalem, Tel Aviv, Haifa and Beersheba, is continuously opening new Hebrew language classes this Spring and Summer.

In the following interview, Mr. Robert Goldfarb, 45, founder and director of the American Ulpan, explains why he is starting Hebrew classes at this time: "Twe iong regarded the Heb-

rew ulpanim in this country as ineffective and inefficient, I've been to five ulpanim in this country seven times and failed every time I've seen American profes-sors of classical Hebrew fail to learn modern Hebrew.

New Material and New Teaching Method

came to Israel in 1962 from California not knowing even the Hebrew alphabet. At the Bat Galim Ulpan in Haifa we were asked to learn the printed alpha-bet one day, the handwritten al-phabet the next day and I was out in a week. Next came Kibbutz Hazorea's work-study Ulpan for five months where I learned some 200 words (you need a minimum of 6000 words to be fluent in a language). I then moved to Jerusalem and attended the Municipality Ulpan, then the Hebrew University Ulpan, then Ulpan Etzion - three times! Altogether . I spent 15 months in Ulpan and learned about 2000 words. We are offering a ten-month

6000-word course from ABC to finency. The course is broken into four months 5 mornings per week from 9.00 a.m. to 12.80 p.m., followed by five months of twiceweekly meetings. We also offer 7.00 to 8.40 a.m. and twice-weekly

evening classes at all levels. Our new course uses the same method we've been using to teach fluent English in 360 classroom hours. We're using the new books and translations prepared by Da-vid Bivin, the Director of the American Institute of Holy Land Studies Hebrew Ulpan on Mt. Zion and his all-Sahra staff. These materials have been proven in their Jerusalem school and in Beersheba where they are teaching the in-coming professors of the University of the Negev. I walked into a class that had been studying for 3 months and was humiliated to discover that, without exception, every student spoke and read better than I do.

So what's new and mitaculous about this method? First, beginners start with audio-

visual material which teaches morning with 300 words to learn the sound structure of Hebrew before class! and introduces one letter of the Hebrew alphabet at a time. Mono-lingual people find it almost im-

method," explaining each new word verbally with actions, pantomime and words previously learned. But educated people require precise definitions! They can guess six or eight possible synonyms for each abstract verb or noun being introduced. Mr. Bivin provides instant translation into English, French, Spanish and Russian. There's no guesswork.

The "direct method" encourages the student to speak freely at the beginning and intermediate levels so one person at a time speaks and 20 listen — mostly to poor Hebrew which must be re-learned later. In our method

The "Encouraging" Method

at the intermediate level the student memorizes a normal situational Hebrew conversation for each unit, is tested on it in both speech and writing, then spends his classroom time doing exercises and drills in fluent though controlled - Hebrew. They don't "baby talk." Our students are not permitted to fall behind. They acquire 40-60 new words per unit and would be doomed to failure if not tested regularly and if 200 or 300 unknown words were allowed to accumulate. Try waking up some

duce new sentence structures and vocabulary items and also summarize a university-level subject on Israel. These subjects include units on Geography, Health Services, Consumer Education and Political Institutions, to name a

Loans to New Immigrants

Our advanced level using "substantive" units brings the student up to 6000 words where he is able to understand a university lecture - and teach in Hebrew. Our tultion is higher than most government ulpanim, but far cheaper in the long run from the standpoint of time and money. We provide loans of up to two thirds the tultion cost to new immigrants in our latensive classes. Jewish Agency subsidies are aiso possible for certain individuals.

Reception hours are from 4.30 7.30 p.m. every day (except in Beersheba where we do not receive on Tuesdays). In Jerusalem we are at 1 Rehov Shalmon at Zion Square (over Steimatzky's book store); in Tel Aviv st 158 Rehov Dizengoff; in Essifa at 13 Rehov Bialik, and in Beersheba in the Shavit Theatre building in the centre of town.

The trial yesterday started with a point of order — the second in this four-day trial. The purpose was to rule on Mr. Kreitzman's objection to the admissibility of Okamoto's verbal statements to Police Superintendent Menashe Golan, who headed the investigation of the massacre. The presecution requested that this protocol be added to the written confession. The court decided not to add it to the confession after hearing the summaries of both sides.

400th year of death of Ha'ari starts tomorrow

A series of public events in mem-ory of Rabbi Yitzhak Luria (The Ari), who died 400 years ago, will begin in the Capital on Saturday. The first event will be a kiddush at the Torat Haim synagogue in the Old City, near the spot where the Ari was born.

Rabbi Luria, one of the greatest Kabbalists, died at the age of 38 in Safed. On Sunday, the Ari Forest — to include more than 250,000 trees will be planted near Safed by the Jewish National Fund.

During the anniversary year seminars, lectures, exhibitions and public gatherings will be held in honour of The Ari. In addition, an institute for the study of Lurianic Kabbala will be dedicated on Mt.

KUNETIRA — The J.N.F.'s Development division has begun clearing the rubble in this town, until 1967 a Syrian administrative and military centre, and since then a ghost town. The J.N.F. spokesman said yesterday the area would be prepared for cultivation, probably by the settle-ments in the vicinity. During the past five years, the damaged houses have fallen into disrepair. The clearing work is being carried out by private contractors.

The JNF. has also started to construct a 28 km.-long security road running north-south, parallel to the cease-fire line with Syria. It will serve as the main highway in the central Golan area, the spokesman said.

hovot's Kaplan Hospital.

The second robbery, which took place an hour later, netted IL45,000 from the Bank Limiacha branch on Rehov Merkaz Ba'alei Hamelacha in Tel Aviv. The robbers, who man-handled the bank customers, arrived in a stolen Ford Anglia at 11.39 a.m., with stocking caps covering most of their faces and their eyes hidden behind dark sunglasses. Brandishing Uzi submachine guns, they ordered the bank employees and clients to hand over their money.

The bank cashler, Benny Bar-Moshe, hurriedly handed over whatever he had, and as one of the robbers emptied the loot into a sack the other collected money from the clients. The robber beat 18-year-old Sara Barzilai of Kfar Syrkin with his gun in taking IL300 from her. The girl lost consciousness and was revived later at the Magen David Adom station.
